The nominated adviser is required to make a declaration to the London Stock Exchange plc on admission in the form set out in Schedule Two to the AIM Rules for Nominated Advisers. The AIM Rules are less demanding than those of the Official List of the UK Listing Authority. It is emphasised that no application is being made for admission of these securities to the Official List of the UK Listing Authority. Dear Shareholder,

Acquisition of Sport Newspapers Limited
Placing of 58,266,667 Placing Shares at 75 pence per share
Vendor Placing of 19,273,148 Existing Ordinary Shares at 75 pence per share
Application for admission of the Enlarged Share Capital to AIM
Change of name to Sport Media Group plc
Notice of Extraordinary General Meeting

1. Introduction

Further to the Company's announcement on 25 June 2007 regarding discussions concerning the proposed acquisition of Sport Newspapers, I am pleased to announce that the Company has today entered into a conditional agreement for the acquisition of the entire issued share capital of Sport Newspapers. In addition, the Company announces today that it is raising gross funds of £43,700,000 by way of a conditional placing of 58,266,667 Placing Shares at 75 pence per share. From this gross amount, approximately £40,000,000 is to provide funds for the payment of the consideration for the Acquisition.

Sport Newspapers is an established UK national tabloid newspaper house with titles including the Daily Sport and Sunday Sport. The Independent Directors believe that the acquisition presents an opportunity to acquire a company that has the potential to grow the business and increase Shareholder value.

The consideration for the Acquisition is £50,000,000 to be satisfied in cash and by issue of the Loan Stock, *pro rata* the shareholdings of the Vendors in Sport Newspapers. In addition Daniel Stewart has conditionally placed David Sullivan's entire beneficial holding of 19,273,148 Ordinary Shares in order to raise approximately £14,454,861, before expenses, with institutional and other investors.

The Acquisition is classified as a "reverse takeover" under the AIM Rules by virtue of the size of the transaction. As such the Acquisition is subject to the approval of Shareholders, which will be sought at the Extraordinary General Meeting. In addition, on 15 June 2007 the Company entered into the L&A Agreement (further details of which are set out in paragraph 6.2 of Part 7 of this document) which is a related party transaction between the Company and Simon Hume Kendall in accordance with the AIM Rules.

Furthermore, as David Sullivan (one of the Vendors) is a Significant Shareholder (as defined in the AIM Rules), having a beneficial interest in 19,273,148 Ordinary Shares representing 49.95 per cent. of the Existing Ordinary Shares, the Acquisition is also a related party transaction under the AIM Rules. The Independent Directors have consulted with Daniel Stewart in giving their recommendation set out in paragraph 16 below. David Sullivan has given an irrevocable undertaking to vote in favour of the Resolutions, further details of which are set out in paragraph 4 of Part 7 of this document.

The Proposals are conditional, *inter alia*, on the passing of the Resolutions by Shareholders at the EGM. In aggregate, the Company has received irrevocable undertakings to vote in favour of the Resolutions to be proposed at the EGM in respect of 20,298,375 Existing Ordinary Shares, representing approximately 52.61 per cent. of the Existing Ordinary Shares.

Application has been made to the London Stock Exchange for the Enlarged Share Capital to be admitted to trading on AIM. Admission is expected to become effective and trading is expected to commence on AIM on 5 September 2007. The Placing Shares have no right to receive or to be paid any dividend in respect of the Company's financial year ending 31 July 2007 and accordingly have been constituted as a separate class of ordinary shares and a separate class of AIM securities. The Placing Shares and the Ordinary Shares have different ISIN and SEDOL numbers. The Placing Shares will automatically convert into Ordinary Shares no later than 31 January 2008. Further details regarding the rights attaching to the Placing Shares are set out in paragraph 8 of Part 7 of this document and in Resolution 3.

The Independent Directors, who have been so advised by Daniel Stewart, believe that the terms of the Proposals are fair and reasonable so far as Shareholders are concerned. The full recommendation is set out at the end of this letter.

The purpose of this document is to: (i) provide you with the background to and to set out the reasons for, and details of, the Proposals; (ii) explain why the Independent Directors consider the Proposals are in the best interests of the Company and its Shareholders as a whole; and (iii) seek Shareholder approval for the Proposals. This document also contains the Independent Directors' recommendation that you vote in favour of the Resolutions to be proposed at the EGM, notice of which is set out at the end of this document.

2. Background to and reasons for the Acquisition

The Company sells digital media content through mobile telephones via the internet to mobile customers of major UK MNOs and users of leading UK internet key search engines. It was incorporated in 1999 and the Ordinary Shares were admitted to trading on AIM on 8 May 2006. The Group has been profitable and has declared dividends since incorporation.

Interactive World does not create its own content but sources a significant amount through a five year rolling agreement with Sport Newspapers, a summary of which is set out in paragraph 6 of Part 7 of this document.

The Directors and the Proposed Director are confident about the future prospects of integrating the two businesses following the Acquisition and believe that the Acquisition has the following key strengths which makes it an excellent acquisition opportunity for the Company:

- an established branded media offering;
- cross selling potential;
- potential upside from a wider distribution of the Sport Newspapers' titles; and
- a highly experienced management team.

Further details of Sport Newspapers are set out in Part 2 of this document.

3. Principal terms of the Acquisition, the Loan Stock and the proposed change of name

On 8 August 2007 the Company entered into the Acquisition Agreement with the Vendors to acquire the entire issued share capital of Sport Newspapers. Under the terms of the Acquisition Agreement, the Company has agreed to pay consideration of £50,000,000 to be satisfied by the payment of £39,700,000 on Admission, the payment of £5,000,000 on 31 December 2007, the issue to the Vendors of £5,000,000 Loan Stock on Admission and the payment of the sum of £300,000 which will be paid into a joint retention account pending the determination of the net current assets of Sport Newspapers Group on Admission.

Following Admission, there will be a determination of the value of the net current assets of Sport Newspapers and its subsidiaries on Admission according to the terms of the Acquisition Agreement. If the net current assets of Sport Newspapers and its subsidiaries exceed the sum of £4,850,000 the joint retention account will be released to the Vendors and in addition there will be paid to the Vendors, by way of additional consideration, a sum equal to the amount of any excess above £5,150,000. If the current net assets of Sport Newspapers on Admission are less than £4,850,000, payment of a sum equal to such shortfall will be made

by the Vendors to the Company by way of deduction from the joint retention account. If the net current assets of Sport Newspapers on Admission are less than £4,550,000 then in addition to the sum of £300,000 to be paid to the Company from the joint retention account, the Vendors will pay to the Company, a sum equal to the amount by which the net current assets on Admission are less than £4,550,000.

The Acquisition Agreement is conditional, *inter alia*, on the passing of the Resolutions and Admission. Under the terms of the Acquisition Agreement the Vendors have given normal commercial warranties and an indemnity in respect of the taxation liabilities of Sport Newspapers and its subsidiaries prior to Admission, such warranties and indemnity being limited as to time and amount.

Further details regarding the terms of the Acquisition Agreement are set out in paragraph 7 of Part 7 of this document.

Under to the terms of the Loan Note the Company is proposing to issue £5,000,000 of the Loan Stock to the Vendors on Admission. The Loan Note will be constituted by the Company immediately following the EGM and the Loan Stock will be issued to Vendors immediately following Admission.

The Loan Note is for £5,000,000 redeemable on 31 August 2008 if not previously purchased or redeemed. The Loan Note carries interest, payable quarterly in arrears, at 2 per cent. over the base rate of The Bank of England from time to time. The Loan Note is redeemable at any time by the Company. The Directors have not applied, and do not intend to apply, to the London Stock Exchange or any other recognised investment exchange for the Loan Stock to be admitted to trading. The Loan Stock is transferable in amounts or integral multiples of £50,000. Further details regarding the Loan Stock are set out in paragraph 7 of Part 7 of this document. The issue of the Loan Stock is conditional on Admission.

In order to reflect the new business of the Company, it is proposed to change the name of the Company to Sport Media Group plc subject to approval of the Shareholders at the EGM.

The entering into of the L&A Agreement is a related party transaction within the meaning of the AIM Rules. Simon Hume Kendall is a director of L&A, which acts in accordance with his directions or instructions. Therefore Simon Hume Kendall has not taken any part in the consideration by the Board of the Proposals.

4. Current Trading and Prospects

Current trading for the Group is in line with market expectations and the Directors are confident with the prospects for the forthcoming year. The performance of Interactive World since the First Admission has been one of continuing growth and development and the Directors are optimistic that such performance can be maintained.

Simon Hume Kendall will continue in the position of Non Executive Chairman and Andrew Fletcher will continue as Chief Financial Officer. They will be supported by Nigel Blythe-Tinker as a Non Executive Director. On Admission Andrew Fickling will be appointed as an Executive Director of the Company and will continue as Managing Director of Sport Newspapers. The Directors and the Proposed Director also intend to appoint a new Chief Executive Officer of the Enlarged Group as soon as is practicable following Admission.

On 7 August 2007, Robert Johnson and Clive Sullivan resigned as directors of the Company. Robert Johnson will remain as managing director of Netcollex Limited, a subsidiary of the Company.

6. Details of the Placing and the Vendor Placing

The Company proposes to raise approximately £40,000,000 (net of expenses) by the issue of 58,266,667 Placing Shares at 75 pence per share. The net cash proceeds of the Placing will be used to fund the Acquisition and to fund costs relating to the Acquisition, the Placing and Admission.

The Placing Shares will represent 151 per cent. of the Existing Ordinary Shares and 60.16 per cent. of the Enlarged Share Capital. The Placing Shares will, when issued have no right to receive or to be paid any dividend for the Company's financial year ending 31 July 2007 and will automatically convert into Ordinary Shares by 31 January 2008. The Placing Shares will otherwise rank *pari passu* in all respects with the

Existing Ordinary Shares. Further details regarding the rights attached to the Placing Shares are set out in paragraph 8 of Part 7 of this document.

Daniel Stewart has conditionally agreed, as agent for the Company, to use its reasonable endeavours to procure cash subscribers for the Placing Shares to be issued under the Placing. The Placing Shares are not being made available to holders of Existing Ordinary Shares in proportion to their holdings of Existing Ordinary Shares. Simon Hume Kendall has agreed to subscribe 970,065 Placing Shares pursuant to the Placing and to acquire 363,268 Vendor Placing Shares pursuant to the Vendor Placing.

The conversion of the Placing Shares into Ordinary Shares is expected to be regarded as a reorganisation of share capital for capital gains tax purposes, to the effect that the holders of the Placing Shares will be deemed not to have made a disposal of their Placing Shares. Following the conversion, the new Ordinary Shares will be treated as replacing the original Placing Shares and carry the original base cost for the purpose of any future share disposals.

Application has been made to HMRC for advance assurance that certain of the Placing Shares are capable of forming a qualifying holding for a Venture Capital Trust. Accordingly certain of the Placing Shares, which the Directors believe will be capable of forming a qualifying holding for a Venture Capital Trust, will be unconditionally issued and allotted, on separate days, following the Extraordinary General Meeting but prior to Admission and will not therefore be conditional upon completion of the Proposals (including the Acquisition).

The Placing is conditional, *inter alia*, upon the Resolutions being passed at the Extraordinary General Meeting, the Placing Agreement becoming unconditional and not being terminated in accordance with its terms and, save for those of the Placing Shares which the Directors believe will form a qualifying holding for a VCT, Admission occurring by no later than 8.00 a.m. on 5 September 2007, or such later date (being no later than 8.00 a.m. on 5 October 2007) as Daniel Stewart and the Company may decide. Further details of the Placing Agreement are set out in paragraph 6 of Part 7 of this document.

Daniel Stewart has, pursuant to the Vendor Placing Agreement, conditionally placed 19,273,148 Existing Ordinary Shares on behalf of David Sullivan and AWD Trustees Limited in order for them to realise approximately £14,454,861 before expenses with institutional and other investors.

7. Use of the Proceeds

The gross proceeds of the Placing receivable by the Company are approximately £43,700,000 and will be used as follows:

- £40,000,000 as consideration for the Acquisition; and
- £3,700,000 for commissions, costs and expenses which are payable by the Company relating to the Acquisition, the Placing and Admission.

8. Dividend Policy

The Directors and the Proposed Director intend to pursue a dividend policy which is consistent with its current dividend policy, subject to the profitability and cash requirements of the Enlarged Group.

The Placing Shares will have no rights to receive or to be paid any dividend in respect of the Company's financial year ending 31 July 2007. Further details regarding the rights attaching to the Placing Shares are set out in paragraph 8 of Part 7 of this document.

9. Corporate Governance

The Directors and the Proposed Director recognise the importance of sound corporate governance. The Company intends, following Admission, to continue to comply with the QCA Guidelines so far as is practicable and appropriate for a public company of its size and nature.

The Company will maintain, with effect from Admission, an audit committee and a remuneration committee. The members of the audit committee and the remuneration committee will be the non-executive directors of the Company from time to time. On Admission, the members of each of the audit committee and remuneration committee will be Nigel Blythe-Tinker and Simon Hume Kendall, with Simon Hume Kendall chairing both committees.

The Directors and the Proposed Director will comply with Rule 21 of the AIM Rules relating to directors' dealings and will take all reasonable steps to ensure compliance by the Company's Applicable Employees (as defined in the AIM Rules).

10. CREST

CREST is a paperless settlement procedure enabling securities to be evidenced otherwise than by a certificate and transferred otherwise than by written instrument. The Articles contain certain provisions concerning the transfer of shares which are consistent with the transfer of shares in dematerialised form in CREST under the CREST Regulations. The Existing Ordinary Shares are, and the Placing Shares from Admission will be, enabled for settlement through CREST. Accordingly, settlement of transactions in the Ordinary Shares and the Placing Shares following Admission may take place within the CREST system if relevant Shareholders and holders of Placing Shares so wish. CREST is a voluntary system and holders of Ordinary Shares and Placing Shares who wish to receive and retain share certificates will be able to do so.

11. Risk Factors

Shareholders should consider carefully the risk factors set out in Part 3 of this document in addition to the other information presented.

12. Venture Capital Trusts

On the basis of information provided, HMRC has previously given assurance that Ordinary Shares in the Company are capable of forming a qualifying holding for a VCT. The Directors believe that a subscription for the Placing Shares (but not the Vendor Placing Shares) will be capable of forming a qualifying holding for a VCT. Application has been made to HMRC for advance assurance that the Placing Shares will be eligible for the purposes of the VCT legislation and may as a result be a qualifying investment for VCT but advance assurance has not yet been received.

Investors seeking to take advantage of any reliefs available under the VCT regime should seek individual advice in order that they fully understand how the rules apply in their individual circumstances.

Whilst the Company cannot guarantee to conduct its activities in a way to allow it to maintain its status as a qualifying VCT investment, the Directors intend, so far as possible, to do so.

The attention of investors is drawn to the information regarding taxation in relation to the Placing and Admission set out in paragraph 11 of Part 7 of this document.

13. Additional Information

Your attention is drawn to the further information set out in Parts 2 to 7 of this document.

14. Extraordinary General Meeting

Set out at the end of this document is a notice convening the Extraordinary General Meeting of the Company to be held at the offices of Daniel Stewart & Company plc, 36 Old Jewry, London, EC2R 8DD at 10.00 a.m. on 3 September 2007 at which the following resolutions will be proposed:

1. an ordinary resolution to approve the acquisition for the purposes of Rule 14 of the AIM Rules;
2. an ordinary resolution to redesignate 58,266,667 Ordinary Shares as 58,266,667 A Ordinary Shares having the rights set out in the Notice of EGM;

3. a special resolution to amend the Articles to set out the rights attaching to the A Ordinary Shares;
4. an ordinary resolution to authorise the Directors under section 80 of the 1985 Act to allot the Placing Shares and further relevant securities for cash up to a limit of £80,709;
5. an ordinary resolution to approve the appointment of Andrew Fickling to the Board;
6. an ordinary resolution to increase the Company's borrowing limits to £40,000,000;
7. an ordinary resolution to approve and adopt each of the New Schemes;
8. a special resolution to authorise the Directors under section 95 of the Act to allot the Placing Shares and further relevant securities for cash up to a limit of £24,212 on a non pre-emptive basis; and
9. a special resolution to change the name of the Company to Sport Media Group plc.

The Resolutions give authority to the Directors to allot shares other than *pro rata* to Shareholders but this authority is limited to: (i) the allotment of the Placing Shares for the purposes of the Placing; (ii) the allotment of Ordinary Shares by way of a rights or other *pro rata* issue in the future; and (iii) the allotment of up to 9,684,800 new Ordinary Shares for cash (for any purpose).

To be passed, Resolutions numbered 3, 8 and 9 which are special resolutions, each require to be passed a majority of not less than 75 per cent. of the Shareholders voting in favour at the EGM. **If the Resolutions are not passed none of the Proposals can be implemented.**

The attention of Shareholders is also drawn to the voting intentions of the Directors set out in paragraph 16 below.

15. Action to be Taken

Shareholders will find enclosed with this document a Form of Proxy for use at the EGM. Whether or not you intend to be present at the EGM, you are requested to complete, sign and return your Form of Proxy to the Company's Registrars, as soon as possible but, in any event, so as to arrive no later than 10.00 a.m. on 1 September 2007 or 48 hours before any adjourned meeting. The completion and return of a Form of Proxy will not preclude a Shareholder from attending the meeting and voting in person if they so wish.

16. Dealings and trading

Trading in the Existing Ordinary Shares on AIM was suspended on 25 June 2007. It is anticipated the trading in the Existing Ordinary Shares will recommence on AIM on 8 August 2007. Application has been made by the Company for the Placing Shares to be admitted to trading on AIM and the Existing Ordinary Shares to be re-admitted to AIM on completion of the Proposals. Trading in the Enlarged Share Capital is expected to commence at 8.00 a.m. on 5 September 2007. The Ordinary Shares and the Placing Shares will be separate classes of AIM securities and will have different ISIN and SEDOL numbers.

If the Proposals are not completed, the Existing Ordinary Shares will continue to be traded on AIM, the Acquisition, the Placing and the Vendor Placing will not take place, the Placing Shares will not be admitted to trading on AIM and the Proposed Director will not join the Board.

17. Recommendation

Simon Hume Kendall has not taken any part in the consideration by the Board of the Proposals as to the recommendation set out below.

The Independent Directors, who have been so advised by Daniel Stewart, consider the Proposals to be fair and reasonable and in the best interests of the Company and its Shareholders as a whole and therefore recommend the Shareholders to vote in favour of the Resolutions to be proposed at the EGM. In giving its advice, Daniel Stewart has taken into account the Independent Directors' and the Proposed Director's commercial assessments.

Certain Shareholders have irrevocably undertaken to vote in favour of the Resolutions in respect of 20,298,375 Ordinary Shares held by them (representing 52.61 per cent. of the Existing Ordinary Shares). Further details of the irrevocable undertakings can be found in paragraph 6.14 of Part 7 of this document.

Yours faithfully

Andrew Fletcher
Chief Financial Officer

PART 2

INFORMATION ON SPORT NEWSPAPERS GROUP

1. Introduction

Sport Newspapers, established in 1986, has grown to become a recognised UK branded tabloid newspaper, publishing titles including the Daily Sport and Sunday Sport.

Current circulation in the UK for the Daily Sport is approximately 108,000 copies on weekdays, 67,000 on Saturdays, and 96,000 for the Sunday Sport. In addition Sport Newspapers distributes the Weekly Sport publication in the Republic of Ireland. Sport Newspapers also publishes various magazines either sold separately or distributed free with the Sunday Sport. The Sport Titles currently represent 1.6 per cent. of the 'red top' tabloid newspaper market.

The Sport Titles are sold to approximately 36,000 retail outlets around the UK by a network of wholesalers, including Menzies Distribution, WHSmith Distribution and Dawson News, with the remainder being sold to independent wholesalers.

Sport Newspapers obtains both photographic and editorial content from a variety of sources, including news and picture feeds from the Press Association and freelance news and picture agencies across the world. In addition content is generated in-house by Sport Newspapers' own news and sports journalists.

The Directors and the Proposed Director believe that the Sport Newspapers' editorial content and advertising has traditionally been influenced by its proprietors and has lacked focus in recent years. This has contributed to declining circulation since April 2005 when daily circulation was at a peak of 189,473 copies on a weekday, 110,785 on a Saturday and 167,971 for the Sunday Sport. The Directors and the Proposed Director believe that the Sport Titles are a niche offering and that the Enlarged Group is in a strong position to benefit from a refocusing of editorial content, distribution and advertising strategies.

Sport Newspapers has been profitable since incorporation with profit before tax for the nine months to 31 May 2007 of £2.8 million on a turnover of £19.6 million, of which 48.4 per cent. of this is generated from newspaper sales, 44.2 per cent. from advertising revenue, and the remainder from magazine and internet and mobile phone revenue.

2. Key Strengths

The Directors and the Proposed Director believe that the key strengths of Sport Newspapers include:

- its position on national newspaper newsstands in approximately 62 per cent. of the UK retail universe;
- a well known and established newspaper brand;
- a well defined demographic of readers, making it an efficient vehicle for promotion of products and services to the male C2DE profile;
- a non-unionised and efficient production unit;
- long-standing relationships with key advertisers, contributors and retailers; and
- a long history of profitable trading.

3. Market and Competition

Recent ABC figures show that approximately 5.9 million newspapers are sold in the tabloid market in the UK on a daily basis. The National Readership Survey figures show that between 2 and 2.5 people read each copy sold, equating to between 11.8 million and 14.75 million daily readers.

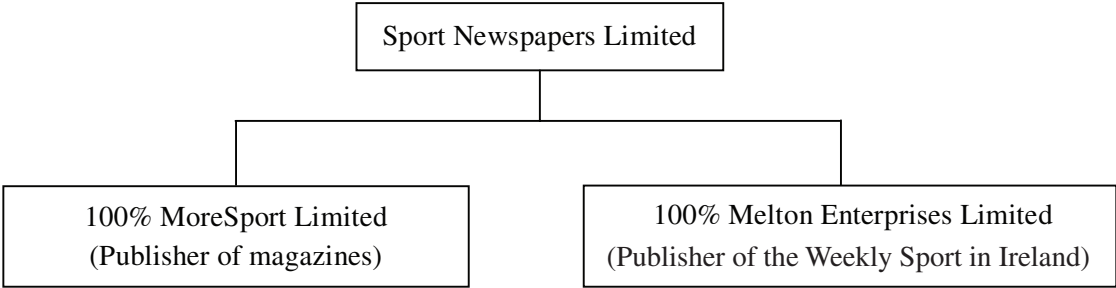

The main titles in the market include The Sun, News of the World, The Daily and Sunday Mirror, The Daily and Sunday Star, The People and the Daily Record (published in Scotland only). In terms of content, the Daily Star is seen to be the closest competitor to the Sport Titles (with an average circulation of 770,000 copies per day in April 2007), representing approximately 13 per cent. of the market.

External factors have contributed to a market-wide decline in circulation for tabloid newspapers, for example, other national newspapers have seen competition from the internet affect their circulation (to a greater or lesser degree). The Directors and the Proposed Director believe that due to the Daily Sport’s and Sunday Sport’s more specific reader profile (blue-collar male) these papers are often read in environments where the internet is not commonly available (such as by vehicle-bound workers and on building sites) and the Directors believe that by exploiting this position through targeted marketing and editorial strategies growth can be achieved within this sector.

The Directors and Proposed Director believe that the introduction of men’s weekly magazines Nuts and Zoo which, combined, sell around 500,000 copies per week has also impacted on the tabloid daily newspapers market, taking some of the market share. The Directors and the Proposed Director believe that there is an opportunity to be gained from the editorial style and production values of these publications which can be applied to the Sport Titles.

4. Business Activities

Sport Newspapers, a private limited company, was established in 1986 by David Sullivan (who owns 50 per cent. of the shares of Sport Newspapers) and Ralph and David Gold (who each own 25 per cent. of the shares of Sport Newspapers). The sale of newspapers, also generates income from the sale of advertising space within the newspapers and via royalties from an agreement with Interactive World. The current structure of active trading companies within the Sport Newspapers Group is as follows:

The Sport Titles are printed at three centres around the UK: Broughton Printers in Preston, Westferry Printers in London and Johnston Press in Portadown, with long-term printing agreements in place at Broughton and Westferry until 2018. The Sport Titles are distributed from the print centres by CEVA (formerly TNT).

Although selling to individual members of the public, Sport Newspapers maintains a relationship with the UK wholesale network to manage the distribution and sales of the Sport Titles, on a sale or return basis.

The current selling price per newspaper is 50 pence for the Daily Sport and 80 pence for the Sunday Sport.

Sport Newspapers has been a content supplier and a means of advertising for Interactive World since 2000. The relationship is based on a revenue share basis and the two companies have worked closely to initiate new and up to date content and routes to consumers.

5. Regulatory Environment

The content of newspapers is subject to the relevant UK statutes and to the UK common law. Included within this are the laws of defamation, human rights, intellectual property, obscenity (blasphemy and race hatred), confidence, contempt of court, reporting restrictions, official secrets and censorship.

There is no official regulator, appointed by statute, to regulate newspapers. However, there are a number of self regulatory bodies which are relevant. The Press Complaints Commission (PCC) is a private body funded by a levy on the owners of UK newspapers and magazines. The PCC hears complaints by members of the public who claim to have been unfairly treated by a newspaper. The PCC has developed a 16-clause code of practice which it uses when it hears such complaints. The PCC has no explicit legal powers, although the newspaper (in respect of which a complaint is made) publishes the PCC's findings. Other relevant self-regulatory authorities include the Advertising Standards Authority which hears complaints about advertisements which fall below the requisite standard.

Sport Newspapers uses lawyers to review in advance the editorial content of each publication.

6. Current Trading and Prospects

Circulation levels for the Sport Titles have stabilised in recent months and the Directors and the Proposed Director believe the outlook is promising for the remainder of the current financial year to 31 August 2007. The Directors and the Proposed Director believe that the significant reorganisation of the Sport Newspapers Group, which began in January 2007, will contribute to an improvement in future trading.

7. Strategy

The Directors and Proposed Director believe that following the Acquisition they will be able to implement straight forward and low cost changes to the Sport Newspapers Group that will have a positive impact on copy sales and advertising revenue from the Sport Titles as follows:

Editorial, Advertising and Distribution Strategy

- Gradually refocus the editorial direction of the Sport Titles to strengthen the glamour and humour content within the newspapers;
- Improve the quality and depth of sport coverage and analysis in the Sport Titles;
- Refocus the advertising content and profile of the Sport Titles to attract blue chip advertising whilst maintaining existing advertising revenue;
- Strengthen the branding of the Enlarged Group to allow further growth in print, online and mobile content markets; and
- To build on Sport Newspaper's position as a national tabloid newspaper publisher by targeting current non-selling retailers and broadening the readership base through advertising control and editorial strategies.

PART 3

RISK FACTORS

The Directors and Proposed Director believe that an investment in the Ordinary Shares may be subject to a number of risks. Shareholders and prospective investors should consider carefully all of the information set out in this document and the risks attaching to an investment in the Company, including in particular the risks described below, before making any investment decisions. The information below does not purport to be an exhaustive list. Shareholders and prospective investors should consider carefully whether an investment in Ordinary Shares is suitable for them in the light of information in this document and their personal circumstances.

The Ordinary Shares and the Placing Shares should be regarded as a highly speculative investment and an investment in Ordinary Shares and the Placing Shares should only be made by those with the necessary expertise to fully evaluate the investment. Prospective investors are advised to consult an independent adviser authorised under the Financial Services and Markets Act 2000.

If any of the following risks relating to the Enlarged Group were to materialise, the Enlarged Group's business, financial condition and results of future operations could be materially adversely affected. In such cases, the market price of the Ordinary Shares and the Placing Shares could decline and an investor may lose part or all of his investment. Additional risks and uncertainty not presently known to the Directors and Proposed Director, or which the Directors and Proposed Director currently deem immaterial, may also have an adverse effect upon the Company or the Enlarged Group.

In addition to the usual risks associated with an investment in a company, the Directors and Proposed Director consider the following risk factors to be significant to potential investors:

(a) Volatility of the AIM Market

The value of publicly traded media companies can be highly volatile and potential investors should be aware that the value of shares can rise or fall. There may not always be adequate information available to determine the market value of an investment in smaller companies at all times. An investment in a share which is traded on AIM, such as the Ordinary Shares, might be less realizable and might carry a higher risk than a share quoted on the Official List. The ability of an investor to sell Ordinary Shares and the Placing Shares will depend on there being a willing buyer for them at an acceptable price. Consequently, it might be difficult for an investor to realize his/her investment in the Group and he/she may lose all his/her investment. In addition, there can be no guarantee that the market price of an investment in the Group will fully reflect its underlying value.

(b) Key Management

The success of the Enlarged Group is dependent on, amongst other things, its continuing ability to attract and retain key management and operating personnel. Specifically the departure of key management, sales or technical personnel could have a material adverse effect on the existing and future business of the Enlarged Group.

(c) Intellectual Property Rights

Third parties may assert claims that the Enlarged Group has infringed a patent, a particular copyright work, trade mark or other proprietary right belonging to them (including without limitation, moral rights, rights in confidential information and rights of privacy). Any intellectual property claims, with or without merit, could be time consuming, expensive to litigate or settle and could divert management resources and attention. In order to publish newspapers and magazines and to licence content to third parties, the Enlarged Group will be dependant on obtaining licences to exploit literary and artistic copyright works, including photographs. Such licences are obtained from companies and also from individuals. Licences may not always be obtained in writing and may not cover all of the uses made of these materials.

(d) Regulatory Risks

The majority of content distributed and promoted by the Group is subject to various regulation in particular ICSTIS's Code of Practice in respect of all premium rate charged telecommunications services and legislation regarding the distribution of sexually explicit material such as the Obscene Publications Acts 1956 and 1964. For the Group to offer its current content it has to have approval from ICSTIS in respect of adult online services, reverse billed SMS services and an internet dialer service. Whilst the Group currently has approval from ICSTIS, if any material breaches occur this approval may be withdrawn which would prevent the Group from operating.

Recently the premium rate telecommunications industry has been beset by a number of high profile scandals, mostly involving television quiz shows. This may hurt consumer confidence in premium rate telecommunications services and thereby lower revenues. Further, regulation in the area may be toughened as a consequence. Indeed, in June 2007 ICSTIS introduced emergency changes to its Code of Practice and announced a review of the same. ICSTIS is an industry-funded regulatory body and therefore self interested. There is therefore a risk that the Government may legislate to remove self regulation and impose a statutory regime if self regulation is deemed ineffective. Changes to the current regulatory regime may be detrimental to the Enlarged Group.

Complaints may be brought to The Press Complaints Commission ("PCC") (concerning the editorial content of the Enlarged Group's newspapers) or to the Advertising Standards Authority ("ASA") (concerning advertising for or in the Enlarged Group's publications). Neither the PCC nor the ASA have the power to impose fines but their findings may be published. Non compliance can lead to a referral to the Office of Fair Trading, who has the power to seek court orders (of their own volition or as a result of a complaint) against businesses who breach certain consumer protection laws.

(e) Data Protection Compliance

The Enlarged Group must comply with data protection and privacy laws (including the Data Protection Act 1998, the Privacy and Electronic Communications Regulations 2003 and the Human Rights Act 1998) which govern its ability to collect and use personal information relating to its customers or potential customers including the marketing use of that information. The Enlarged Group relies on various personnel to maintain its databases and ensures non-disclosure agreements are in place with these personnel and attempts to minimize access to its customer database to those that need it for performing their responsibilities.

Notwithstanding such non-disclosure agreements and such efforts to manage this, confidential information and/or personal data may be wrongfully appropriated or disclosed by the Enlarged Group's employees. The Directors and the Proposed Director will ensure that, after Admission, the Enlarged Group's customer privacy policies and data collection notices accurately describe the uses to which the customer data will be put to use.

The EU Data Protection Directive and equivalent laws that have been enacted in the European Union regulate how the Enlarged Group collects and uses personal information in the EU. These laws also regulate how data is exported to countries outside the EU for any purpose.

It is possible that these laws may be interpreted and applied in a manner that is inconsistent with the Enlarged Group's data practices. If so, in addition to the possibility of fines, this could result in the Enlarged Group being required to change its data practices, which could have a material effect on its business, revenue and financial position.

Failure to comply with the Data Protection Act 1998 can lead to proceedings for criminal offences being brought by the Information Commissioner or by the Director of Public Prosecutions. Directors and other officers of companies which have committed offences under the Data Protection Act 1998 may also be liable to prosecution.

The Enlarged Group may also face civil proceedings. Any individual suffering damage or damage and distress (but not distress alone) as a result of a data controller's failure to comply with the principles in processing his or her personal data has a right to sue for damages under the Data Protection Act.

The Enlarged Group does not currently have in place a written data or document retention policy but intends to adopt a group-wide policy on data and document retention based on the principle that data and documents should only be kept for as long as is necessary and, where data or documents are kept for multiple purposes (such as marketing and audit), such data or documents should be kept for the longest period necessary with the relevant purpose justified by that retention period.

(f) Foreign Jurisdictions

The Enlarged Group's business and the contracts into which it enters are subject to different laws and jurisdictions worldwide. The Enlarged Group's content can be accessed by users, who may bring different legal actions against the Enlarged Group depending on their jurisdiction and local laws.

(g) Potential Competition

The Enlarged Group's market has growth potential and the Directors and the Proposed Director believe that the Enlarged Group faces limited direct competition. However it is expected that over time competition will grow rapidly. The Directors and the Proposed Director believe that the main competition will be from developments by consultancy companies wanting to work directly with the content providers.

These potential competitors may have greater resources than the Enlarged Group and would have the following advantages:

- greater financial resources;
- stronger brand name;
- pre-existing relationships with content providers;
- more resources to deploy on accelerating projects;
- lower labour and development costs; and
- greater geographical coverage.

(h) International Competition

The Enlarged Group may not enjoy the same economies of scale and efficiencies internationally that it does domestically. There may be local specialists who have the following advantages over the Enlarged Group:

- closer relationships with local MNOs;
- closer to the local regulation and laws;
- better understanding of local markets; and
- lower operating costs.

(i) Market for mobile phones

The Group's recent success has depended to a significant extent on the growth in the market for mobile phone data services, in particular those of an adult nature. There can be no assurance that such market growth will continue and this would have a material adverse effect on the Enlarged Group.

(j) Privacy and Breach of Confidence

Article 8 of the Human Rights Act 1998 ("HRA") guarantees individuals the right to respect for their private lives. Privacy law has been developing rapidly since the introduction of the HRA and it is increasingly difficult for newspapers to justify printing photographs of people engaging in their private lives where there is little or no public interest in publication. Surreptitious "long lens" photography of individuals on holiday or engaged in sexual activity are especially problematic.

Additionally the law of confidence has been used successfully and increasingly to prevent the publication of certain stories and pictures, usually regarding the lives of celebrities.

The content of the newspapers produced by the Enlarged Group features to a significant extent the kinds of pictures and stories that may now be unlawful for the reasons set out above. The Enlarged Group may therefore find itself subject to claims from the subjects of those stories and pictures. This holds true in the case of other publications produced by the Enlarged Group.

(k) Content Risk

The Enlarged Group may be affected by the regulatory and legal environment relating to the content control and access. Regulation both current and future could cause additional expense and have a material impact on the Enlarged Group's business, the extent of which cannot be predicted.

Certain jurisdictions may attempt to make the Enlarged Group responsible for the content which it facilitates or may be held responsible for content.

The Enlarged Group's business could also be affected by changes in the law that prohibit the provision of services by some of its content providers.

(l) Risks relating to change of ownership of a national newspaper

Merger activity in general, including the acquisition of newspaper interests, is subject to the framework and jurisdiction of the Office of Fair Trading (OFT) as set out in the 2002 Enterprise Act. The Directors consider that this Acquisition falls outside the thresholds of the jurisdiction of the OFT as set out in the 2002 Enterprise Act.

In any event, even though the Acquisition falls outside the relevant thresholds, there is a residual discretion in the remit of the Secretary of State for Trade and Industry to refer certain newspaper acquisitions to the Competition Commission on public interest grounds. The Directors consider that the chances of such a referral by the Secretary of State are low.

(m) VCT status

Application has been made to HMRC for advance assurance that the Placing Shares will be eligible for the purposes of the VCT legislation and may as a result be a qualifying investment for VCT but advance assurance has not yet been received. There is no guarantee that such assurance will be forthcoming. Further, whilst the Directors intend, so far as possible, to conduct the activities of the Company in such a way as to allow it to maintain its status as a qualifying VCT investment, there is no guarantee that they will be able to do so.

The risks noted above do not necessarily comprise all those faced by the Company and are not intended to be presented in any assumed order of priority.

The investment described in this document is speculative and may not be suitable for all recipients of this document. Potential investors are accordingly advised to consult a person authorised under the Financial Services and Markets Act 2000 who specialises in advising in investments of this kind before making any investment decisions. A prospective investor should consider carefully whether an investment in the Company is suitable in the light of his personal circumstances and the financial resources available to him.

1. ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in the relation to the Sport Newspapers Group's financial statements.

Basis of Preparation

This financial information has been prepared under the historical cost convention and in accordance with applicable United Kingdom Accounting Standards.

In the period prior to 24 September 2004, Sport Newspapers Group owned 77.5 per cent. of the issued share capital of Birmingham City plc, the owner of Birmingham City Football Club, the results of which were included in its consolidated financial statements. On 24 September 2004, that interest was disposed to shareholders or entities connected to shareholders in Sport Newspapers Group. The financial information excludes the trade, activities, profit on disposal and related dividends of Birmingham City plc through an adjustment to opening reserves as at 1 September 2003.

The principal accounting policies which the directors have adopted are set out below.

Basis of Consolidation

The financial information consolidates the financial statements of Sport Newspapers and its subsidiary undertakings, Melton Enterprises Ltd, News and Echo Ltd, Sport.com Ltd and Moresport Ltd, for the financial years ended 31 August 2004, 2005 and 2006 and for the nine month period ended 31 May 2007 except as described above in the basis of preparation. All inter-company transactions and balances have been eliminated.

Turnover

Turnover represents the value of newspaper and advertising sales less returns and ancillary revenues from exploitation of content through the internet and telephony platforms. All turnover is exclusive of Value Added Tax and arose predominantly in the United Kingdom.

Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Leasehold properties and improvements	over the term of the lease
Equipment, fixtures and fittings	over 2 to 5 years
Motor vehicles	over 4 to 5 years
Computer systems	over 3 years

Leasing

The group enters into operating and finance leases.

Assets held under finance leases are included in the balance sheet and depreciated in accordance with the group's normal accounting policies. The present value of future rentals is shown as a liability. The interest element of rental obligations is charged in the profit and loss account over the period of the lease in proportion to the balance of capital repayments outstanding.

Rentals payable under operating leases are charged to the profit and loss account as incurred.

Stock

Stock is valued at the lower of cost or net realisable value.

Deferred Taxation

The payment of taxation is deferred or accelerated because of timing differences between the treatment of certain items for accounting or taxation purposes. Full provision for deferred taxation is made, without discounting, on all timing differences that have arisen but not reversed by the balance sheet date, unless such provision is not permitted by FRS 19. Deferred tax assets are recognised to the extent that it is regarded more likely than not that they will be recovered.

In accordance with FRS 19, deferred tax is not provided for:

- (a) revaluation gains on land and buildings, unless there is a binding agreement to sell them at the balance sheet date;
- (b) gains on the sale of non-monetary assets, where, on the basis of all available evidence, it is more likely than not the taxable gain will be rolled over into replacement assets.

Pensions

The group operates defined contribution pension schemes and the pension charge represents the amounts payable by the group to the funds in respect of the period. The assets of the schemes are held separately from those of the Sport Group.

Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to the profit and loss account.

Financial Instruments

Financial assets and financial liabilities are recognised on the group's balance sheet when the group becomes a party to the contractual provisions of the instrument.

Trade receivables

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

Investments

Investments are measured at cost, including transaction costs, less any impairment loss recognised to reflect irrecoverable amounts. An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the investment's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition. Impairment losses are reversed in subsequent periods when an increase in the investment's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the investment at the date the impairment is reversed shall not exceed what the amortised cost would have been had the impairment not been recognised.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into.

Bank borrowings

Interest bearing bank loans, stocking loans and overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accrual basis in profit or loss using the effective interest rate method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Trade payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs.

Earnings per share

Basic earnings per share is calculated by dividing the amounts or profit attributable to ordinary equity shareholders in the company by the weighted average number of shares in issue during the period. Diluted earnings per share is calculated by reference to the effect of dilutive potential ordinary shares. Potential ordinary shares are treated as dilutive when their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

Liquid resources

The Sport Newspapers Group includes short term deposits and bank deposit accounts as part of liquid resources.

The aggregate amount of capital and reserves and the results of these undertakings for the last relevant financial year ended 31 October 2005:

1. ACCOUNTING POLICIES

This financial information has been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards. The principal accounting policies which the directors have adopted are set out below.

Basis of Consolidation

The financial information consolidates the financial statements of the Company and its subsidiary undertakings for the financial years ended 31 July 2004, 2005 and 2006 and for the six month period ended 31 July 2007. All inter-company transactions and balances have been eliminated. Acquisitions meeting the criteria of FRS 6 'Acquisition and Mergers' are accounted for using merger accounting.

Goodwill

Goodwill is the excess of the fair value of the consideration paid for a business or trade and assets acquired and is carried on the balance sheet at cost.

Purchased goodwill is capitalised in the year in which it arises and amortised over its estimated useful life. The Directors consider the economic life of goodwill separately on each acquisition. Goodwill capitalised to date will be written off over a 15 year period, being a fair estimate of its useful economic life.

Impairment reviews are carried out at the end of the first full financial period following initial recognition, and thereafter if subsequent events or changes in circumstances indicate that impairment may have taken place.

Other intangible assets

Product licensing rights and customer databases are capitalised at cost in the year in which they are acquired and amortised over their estimated useful lives. The Directors consider the economic life of each intangible asset separately on each acquisition.

Amortisation is provided at rates calculated to write off the cost of each intangible asset over its expected useful life, as follows:

Licensing rights and related
customer databases

Over the license term on a straight line basis

Impairment reviews are carried out at the end of the first full financial period following initial recognition, and thereafter if subsequent events or changes in circumstances indicate that impairment may have taken place.

Research and Development

Research and Development expenditure is written off to the profit and loss account in the year in which it is incurred.

Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Fixed Assets and Depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Web based file servers	33.3% on a straight line basis
Fixtures, fittings & equipment	20% on a straight line basis

The carrying value of the tangible assets is reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Turnover

Turnover is principally derived from mobile and internet content delivery and represents amounts receivable for goods and services net of VAT and trade discounts. Income is recognised in the period in which content is delivered to end users.

Deferred Tax

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset. Deferred tax assets are recognised to the extent that they are regarded as being recoverable. Deferred tax assets and liabilities are not discounted.

Website Costs

Website costs have been written off to the profit and loss account as incurred.

Dividends

Only dividends declared and payable at the balance sheet date are included as liabilities at that date. Dividends declared after the balance sheet date but before the date of the approval of the financial information are disclosed in the notes as post balance sheet events in accordance with FRS21 'Events After the Balance Sheet Date' as if that standard had been in effect throughout the reporting period.

Employee share schemes

The Company's employee share schemes allow the employees of the Interactive Group to acquire shares in the Company. In accordance with FRS20 'Share Based Payments', the fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. At each balance sheet date, the Company revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates in employee expense and in a corresponding adjustment to equity over the remaining vesting period. There were no material adjustments consequent on adopting this accounting policy in the period ended 31 January 2007, nor to prior periods – see note 15.

Earnings per share

Basic earnings per share is calculated by dividing the amounts of profit attributable to ordinary equity shareholders in the Company by the weighted average number of shares in issue during the period. Diluted earnings per share is calculated by reference to the effect of dilutive potential ordinary shares. Potential ordinary shares are treated as dilutive when their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

Liquid resources

The Interactive Group includes short term deposits and bank deposit accounts as part of liquid resources.

Financial instruments

Financial assets and financial liabilities are recognised on the group's balance sheet when the group becomes a party to the contractual provisions of the instrument.

Trade receivables

Trade receivables are measured at initial recognition at cost, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

Investments

Investments are measured at cost, including transaction costs, less any impairment loss recognised to reflect irrecoverable amounts. An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the investment's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition. Impairment losses are reversed in subsequent periods when an increase in the investment's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the investment at the date the impairment is reversed shall not exceed what the amortised cost would have been had the impairment not been recognised.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities and equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

Trade payables

Trade payables are initially measured at incurred cost, and are subsequently measured at amortised cost, using the effective interest rate method.

Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs.

The Company has an option to acquire the remaining 45.5 per cent. of the issued share capital of Strictly Broadband Limited between 2008 and 2011.

Positive goodwill of £316,000 arising on this transaction has been capitalised and is being amortised over 15 years, which is based on the directors' estimate of its useful economic life.

Share options granted to directors and employees

The fair value of share options granted to directors and employees is measured at the date of grant and spread over the period during which the employees become unconditionally entitled to the options. At each balance sheet date, the Company revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates in employee expense and in a corresponding adjustment to equity over the remaining vesting period.

The Company adopted this accounting policy in relation to the financial year ending 31 January 2007.

A Black-Scholes model has been used to determine the fair value of the share options on the date of grant. The fair value is expensed to the profit and loss account on a straight line basis over the vesting period, which is determined annually. The model assesses a number of factors in calculating the fair value. These include the market price on the date of grant, the exercise price of the share options, the expected share price volatility of the market sector in which the group operates, the expected life of the options, the risk free rate of interest and the expected level of dividends in future years.

The inputs into the model were as follows:

<i>Granted</i>	<i>Unapproved</i>	<i>Other 2006</i>	<i>EMI 2007</i>
Weighted average share price	73.00p	73.00p	79.50p
Weighted average exercise price	73.00p	73.00p	79.50p
Expected volatility	25%	25%	46%
Estimated vesting period	3 years	3 years	3 years
Risk-free rate	4%	4%	4%
Expected dividend yield	6%	6%	6%

Expected volatility was determined at the date of grant of options as follows:

In respect of the earlier grants based on the directors estimates of volatility of similar quoted stocks and in respect of later grants by estimating the actual volatility at the date of grant by reference to the Company's share price since admission to AIM.

There were no material amounts to charge to the profit and loss account for any of the periods ending 31 January 2007. Had charges been included in the profit and loss account, they would have amounted to an aggregate £40,000.

Based on share options granted to date and summarised above the directors estimate that the charge to profit and loss account in relation to share based employee remuneration will be approximately £70,000 for the full year to 31 July 2007.

16. EARNINGS PER SHARE

The calculation of basic earnings per share is based on a profit of £1,423,000 in the six months ended 31 January 2007 (Year ended 31 July 2006: £3,014,000; year ended 31 July 2005: £2,205,000; year ended 31 July 2004: £2,014,000) and a weighted average number of shares in issue of 38,495,252 (Year ended 31 July 2006: 36,225,371; year ended 31 July 2005: 35,512,210; year ended 31 July 2004: 35,512,210).

Diluted earnings per share assumes dilutive options have been converted into ordinary shares. The calculations are as follows:

	<i>12m to 31 July 2006 Profit £'000</i>	<i>12m to 31 July 2006 Shares (Number)</i>	<i>6m to 31 Jan 2007 Profit £'000</i>	<i>6m to 31 Jan 2007 Shares (Number)</i>
Basic earnings	3,014	36,225,371	1,423	38,495,252
Dilutive effects – options	–	3,047,436	–	3,754,802
	<u>3,014</u>	<u>39,272,807</u>	<u>1,423</u>	<u>42,250,054</u>

In the two years ended 31 July 2004 and 31 July 2005 there were no dilutive options.

In arriving at the number of shares used in the calculations of earnings per share (basic and diluted) the sub-division of share capital and bonus issue of new ordinary shares, both of which took place on 4 April 2006 and are referred to in note 13 above, have been treated as having taken place on 1 August 2003.

Interest rate risk

The group seeks to minimise interest rate risk by maximising interest received on cash at bank by placing deposits on the money market at the prevailing market rate.

Liquidity risk

The group's policy throughout the period regarding liquidity has been to maximise the return on funds placed on deposit but to minimise the associated risk by placing funds in low-risk cash deposits.

Short term debtors and creditors have been excluded from financial instrument disclosures. All financial assets are held in sterling. Short term deposits are placed with banks and earn interest at commercial rates.

1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The financial information set out in this announcement does not constitute statutory accounts for the Group. Except as set out below, the financial information for the period ended 31 January 2007 has been prepared using accounting policies which are consistent with those adopted in the audited accounts of the Group for the year ended 31 January 2006.

The Company has adopted FRS20 'Share Based Payments' in the current financial year ending 31 July 2007. The Company's accounting policy in this respect is as follows:

"Share based payments

The Company's employee share schemes allow the Group's employees to acquire shares in the Company. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. At each balance sheet date, the Company revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates in employee expense and in a corresponding adjustment to equity over the remaining vesting period."

There were no material adjustments arising as a result of this change in accounting policy in respect of the period ended 31 January 2007 or of prior periods.

The financial information for the year ended 31 January 2006 has been extracted from the statutory accounts for that year for the Group, which have been delivered to the Registrar of Companies.

The Board of Directors approved the financial information set out in this announcement on 8 March 2007.

2. TURNOVER AND SEGMENTAL ANALYSIS

For management purposes the Group is currently organised into a single operating division. For internal reporting purposes the Group records and monitors revenues and cost of sales according to the delivery platform to which content is delivered and through which services are provided. The Group differentiates its key business segments between Mobile Telephony and Internet. Administrative expenses are shared overheads of the business and cannot be meaningfully allocated by revenue stream. The Groups' principal tangible fixed assets consist of computer equipment and servers, which are utilised in the delivery of content and services through both platforms. All of the Group's activities are carried out in the UK.

7.1 *The Acquisition Agreement*

On 8 August 2007 the Company entered into the Acquisition Agreement with the Vendors to acquire the entire issued share capital of Sport Newspapers. Under the terms of the Acquisition Agreement, the Company has agreed to pay consideration of £50,000,000 to be satisfied by the payment of £39,700,000 on Admission, the payment of £5,000,000 on 31 December 2007, the issue to the Vendors of £5,000,000 Loan Stock on Admission and the payment of the sum of £300,000 which will

be paid into a joint retention account pending the determination of the net current assets of Sport Newspapers Group on Admission.

Following Admission there will be a determination of the value of the net current assets of Sport Newspapers on Admission according to the terms of the Acquisition Agreement. If the net current assets of Sport Newspapers exceed the sum of £4,850,000 the joint retention account will be released to the Vendors and in addition there will be paid to the Vendors, by way of additional consideration, a sum equal to the amount of any excess above £5,150,000. If the current net assets of Sport Newspapers on Admission are less than £4,850,000, payment of a sum equal to such shortfall will be made by the Vendors to the Company by way of deduction from the joint retention account. If the net current assets of Sport Newspapers on Admission are less than £4,550,000 then in addition to the sum of £300,000 to be paid to the Company from the joint retention account, the Vendors will pay to the Company, a sum equal to the amount by which the net current assets on Admission are less than £4,550,000.

The Acquisition Agreement is conditional, *inter alia*, on the passing of the Resolutions and Admission. Under the terms of the Acquisition Agreement the Vendors have given normal commercial warranties and an indemnity in respect of the taxation liabilities of Sport Newspapers prior to Admission, such warranties and indemnity being limited as to time and amount.

The Acquisition Agreement is conditional upon, *inter alia*:

- 7.1.1 the Resolutions being duly passed without material amendment; and
- 7.1.2 the Placing Agreement not being terminated and becoming unconditional in all respects in accordance with its terms (save for any condition relating to the Acquisition Agreement becoming unconditional or Admission).

The Acquisition Agreement contains certain warranties and indemnities given by the Vendors for which the maximum aggregate liability for breach is limited to the consideration paid to the Vendors. A claim against the Vendors under the warranties (save for the warranties relating to tax) may only be brought if it exceeds £150,000 and the warranties may only be enforced by the Company on or before 45 business days following the publication of the preliminary results of the Company for the financial period ended 31 July 2009 in the case of the general warranties and prior to the seventh anniversary of Admission in the case of the warranties relating to tax.

The Vendors have also agreed on completion of the Acquisition to enter into a tax deed containing a covenant to indemnify the Company against pre-completion tax liabilities of Sport Newspapers and its subsidiaries, which may only be enforced by the Company prior to the seventh anniversary of Admission. The Company has a right to terminate the Acquisition Agreement in the event that warranty breaches or breaches of the tax deed (had it been entered into on the date of the Acquisition Agreement) or any other provision of the Acquisition Agreement are discovered before completion of the Acquisition Agreement which would have a material adverse effect on the business of the Group, being of an amount of £150,000 or more.

The Acquisition Agreement contains restrictive covenants from each of the Vendors, not to, *inter alia*, compete with the business of the Company for a period of 2 years from Admission and not to solicit any employees of Sport Newspapers and its subsidiaries for a period of 2 years from Admission.

7.2 ***The Loan Note***

On Admission, the Directors will issue £5,000,000 of the Loan Stock pursuant to the Loan Note. The Loan Note provides, *inter alia*, for the following:

- 7.2.1 interest is payable to the Stockholders at a rate of 2 per cent. per annum above the base rate of the Bank of England at or about 11.00 a.m. on the first business days after each date to which interest is calculated for the offering of deposits in Sterling for 3 months, such interest being payable quarterly in arrears;

- 7.2.2 all Loan Stock not previously purchased or redeemed by the Company, will be redeemed on the earlier of 31 August 2008 or the date on which the Company, by notice to the Stockholders, shall specify that such redemption or purchase is to take place, at par, together with the interest accrued to and including such date;
- 7.2.3 the Company may at any time serve notice on Stockholders of its intention to purchase Loan Stock at a price equal to the aggregate principal amount together with accrued interest;
- 7.2.4 on Admission, the Company will issue £5,000,000 of Loan Stock to the Vendors *pro rata* to their holdings of ordinary shares in the capital of Sport Newspapers.

8. MEMORANDUM AND ARTICLES OF ASSOCIATION

8.1 The Company's primary object is that of a trading commercial company and this is set out in page 1 of the Company's memorandum of association.

8.2 The Articles contain provisions, *inter alia*, to the following effect:

8.2.1 Share capital

The Company may by ordinary resolution:

- 8.2.1.1 increase its share capital by such sum to be divided into shares of such amounts as the resolution shall prescribe;
- 8.2.1.2 consolidate its share capital into shares of larger amounts than its existing shares;
- 8.2.1.3 cancel any shares which have not been taken at the date of the passing of the resolution, or agreed to be taken, by any person and diminish the amount of its share capital by the amount of the shares so cancelled; and
- 8.2.1.4 sub-divide its shares, or any of them, into shares of smaller amounts than is fixed by the Company's memorandum of association.

The Company may by special resolution reduce its share capital and any capital redemption reserve and any share premium account in any manner subject to the provisions of the Act. The Company may issue shares which are to be redeemed or are liable to be redeemed at the option of the Company or the shareholders. Subject to the provisions of the Act and the rights of holders of any class of shares, the Company may purchase its own shares, including redeemable shares.

8.2.2 Voting

Subject to any special terms as to voting upon which any shares for the time being may be held, on a show of hands every member who (being an individual) is present in person or by proxy not being himself a member or (being a corporation) is present by its duly appointed representative shall have one vote, and on a poll every member present in person, or by representative, or proxy, shall have one vote for every share in the capital of the Company held by him. A proxy need not be a member of the Company. Where, in respect of any shares, any registered holder or any other person appearing to be interested in such shares fails to comply with any notice given by the Company, then not earlier than 14 days after service of such notice, the shares in question may be disenfranchised.

8.2.3 AGM & EGM Procedures

The Company shall in each year hold a general meeting as its annual general meeting in addition to any other meetings in that year and not more than 15 months shall elapse between the date of one annual general meeting of the Company and that of the next. Subject to the provisions of the Act, the annual general meeting shall be held at such time and place as the Directors may determine.

The Board may convene an extraordinary general meeting whenever it thinks fit. An extraordinary general meeting shall also be convened on such requisition, or in default may be convened by such requisitionists, as provided by Section 368 of the Act. At any meeting convened on such requisition or by such requisitionists no business shall be transacted except as stated by the requisition or proposed by the Board.

Subject to the provisions of the Act, an annual general meeting and a general meeting for the passing of a special resolution shall be called by at least twenty one clear day's notice, and all other general meetings shall be called by at least fourteen clear days' notice.

Shorter notice than that specified above may be deemed to have been given in the case of an annual general meeting by all the members entitled to attend and vote at the meeting; and in the case of any other meeting, by a majority number of the members having a right to attend and vote at the meeting, being a majority together holding not less than 95 per cent. in nominal value of the shares giving that right.

Subject to regulation 41 of the Uncertificated Securities Regulations 2001, any Shareholder has the right to be admitted to any general meeting of the Company.

8.2.4 *Dividends*

The Company may by ordinary resolution in general meeting declare dividends provided that they shall be paid in accordance with the Act and out of profits available for distribution and shall not exceed the amount recommended by the Directors. The Directors may from time to time pay such interim dividends as appear to the Directors to be justified by the profits of the Company and are permitted by the Act.

Subject to the rights of persons, if any, holding shares with special dividend rights, and unless the terms of issue otherwise provide, all dividends shall be apportioned and paid *pro rata* according to the amount paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is payable. Amounts paid or credited as paid in advance of calls shall not be regarded as paid on shares for this purpose.

All unclaimed dividends may be invested or otherwise made use of by the Directors for the benefit of the Company until claimed. All dividends unclaimed for a period of 12 years after having been declared shall, if the Directors so resolve, be forfeited and shall revert to the Company.

Where, in respect of any shares, any registered holder or any other person appearing to be interested in the shares of the Company fails to comply with any notice given by the Company under Section 212 of the Act, then, provided that the shares concerned represent at least 0.25 per cent. in nominal value of the issued shares of the relevant class, the Company may withhold dividends on such shares.

There is no fixed date on which an entitlement to a dividend arises. All dividends are non cumulative.

8.2.5 *Variation of Rights*

All or any of the special rights for the time being attached to any class of shares for the time being forming part of the capital of the Company may, subject to the provisions of the Act, be varied or abrogated either:

8.2.5.1 in such manner (if any) as may be provided by such rights; or

8.2.5.2 in the absence of any such provision, with the consent in writing of the holders of three quarters in nominal value of the issued shares of that class, or with the sanction of an extraordinary resolution passed at a separate general meeting of the holders of the shares of that class, but not otherwise. To every such meeting all the provisions

of the Articles of Association of the Company relating to general meetings or to the proceedings thereat shall, so far as applicable and with the necessary modifications, apply, except that the necessary quorum at any such meeting (other than 1m adjourned meeting) shall be two persons at least, holding or representing by proxy at least one third in nominal value of the issued shares of the class in question and that any holder of shares of the class in question present in person or by proxy may demand a poll.

8.2.6 *Transferability*

Transfers of Ordinary Shares, which are in registered form, shall be effected in the manner authorised by the Stock Transfer Act 1963. The instrument of transfer shall be signed by or on behalf of the transferor and (except in the case of fully paid shares) by or on behalf of the transferee. The Directors may decline, without giving any reason, to recognise any instrument of transfer unless:

- 8.2.6.1 the instrument of transfer (duly stamped) is deposited at the Company's registered office accompanied by the share certificate for the shares to which it relates and such other evidence as the Directors may reasonably require showing the right of the transferor to make the transfer;
- 8.2.6.2 the instrument of transfer is in respect of only one class of share;
- 8.2.6.3 the instrument of transfer is in favour of not more than four transferees; and
- 8.2.6.4 the instrument of transfer is in respect of a share in respect of which all sums presently payable to the Company have been paid.

Where, in respect of any shares, any registered holder or any person appearing to be interested in such shares fails to comply with any notice given by the Company, then provided that the shares concerned represent at least 0.25 per cent. in nominal value of the issued shares of the relevant class, the Company may prohibit transfers of such shares or agreements to transfer any of such shares.

8.2.7 *Directors of the Company*

Unless otherwise determined by ordinary resolution, the number of directors (other than alternate directors) shall be not less than two and not more than eight. Subject to certain exceptions, a Director shall not vote (or be counted in the quorum) in respect of any contract or arrangement or any other proposal whatsoever in which he has any material interest and, if he shall do so, his vote shall not be counted.

The Directors may meet together for the dispatch of business, adjourn and otherwise regulate their meetings as they think fit. The quorum necessary for the transaction of the business of the Directors may be fixed by the Directors, and unless so fixed at any other number shall be two.

Questions arising at any meeting shall be determined by a majority of votes. In case of an equality of votes the chairman of the meeting shall have a second or casting vote. A Director who is unable to attend any meeting of the Directors and has not appointed an alternate Director may authorise any other Director to vote for him at the meeting, and in that event the Director so authorised shall have a vote for each Director by whom he is so authorised in addition to his own vote.

It shall not be necessary to give notice of a Board meeting to a Director who is absent from the United Kingdom unless he has requested the Board in writing that notices of Board meetings shall during his absence be given to him at any address in the United Kingdom.

Any Director or his alternate may validly participate in a meeting of the Board or a committee of the Board through the medium of conference telephone or any other form of communications equipment.

The Directors may delegate any of their powers to committees consisting of at least one member of their body as they think fit, provided that at least one half of the members of any such committee shall be directors of the Company and no resolution of a committee shall be effective unless at least half of those present when it is passed are Directors or alternate Directors. Any committee so formed shall in the exercise of the powers so delegated conform to any regulations that may be imposed on it by the Directors. The meetings and proceedings of any such committee consisting of two or more Directors shall be governed by the provisions of the Articles regulating the meetings and proceedings of the Directors, so far as the same are applicable and are not superseded by any regulations imposed by the Directors under the relevant Article.

Any remuneration paid for the services of the Directors, as fixed by the Company in general meeting, may be divided between the Directors as they shall agree or, failing agreement, equally and shall be deemed to accrue from day to day. The Company may remunerate a Director who serves on any committee or devotes special attention to the business of the Company, or who otherwise performs services which in the opinion of the Directors are outside the scope of the ordinary duties of a Director, by way of salary, lump sum, percentage of profits or otherwise as the Directors may determine.

At each annual general meeting of the Company, one-third of the Directors who are subject to retirement by rotation or, if their number is not three or a multiple of three, the number nearest to but not exceeding one-third, shall retire. A retiring Director is eligible for re-election. In addition, any Director who as at the date of the relevant annual general meeting has been in office more than three years since his appointment or last election or who was elected or last elected at the annual general meeting preceding by three years the relevant annual general meeting, and who in either case is not otherwise to retire by reason of the Articles, shall also retire by rotation.

Each Director (other than an alternate director) may appoint another Director or (subject to the approval of a majority of the Directors) any other person to be an alternate Director of the Company, and may at any time remove an alternate Director so appointed by him from office and, subject to any requisite approval, appoint another person in his place.

The Company may purchase and maintain for any director insurance against any liability which by virtue of any law would otherwise attach to him in respect of any negligence, default, breach of duty or breach of trust of which he may be guilty in relation to the Company.

No person is capable of being appointed a Director if at the time of the appointment he has attained the age of 70.

8.2.8 *Borrowing Powers*

The Directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertaking, property, assets and uncalled share capital, and (subject to the Act) to issue debentures and other securities, whether outright or as collateral security for any debt, liability or obligation of the Company or of any third party. The Directors shall restrict the borrowings of the Company and its subsidiaries so as to ensure that the aggregate of the amounts borrowed by the Company and all its subsidiaries and remaining outstanding at any time shall not without previous sanction of an ordinary resolution of the Company exceed an amount equal to the greater of either four times the aggregate of the nominal amount of the paid up share capital of the Company and the amount shown as standing to the credit of its capital and revenue reserves as defined in the Articles but excluding certain amounts as defined therein or £20,000,000.

8.2.9 *Distribution of assets on liquidation*

If the Company shall be wound up, the liquidator may, with the sanction of an extraordinary resolution of the Company or any other sanction required by the Act, divide amongst the

members *in specie* or in kind the whole or any part of the assets of the Company, those assets to be set at such values as he deems fair. The liquidator may also vest the whole or part of the assets of the Company in trustees on trust for the benefit of the contributories.

8.2.10 *Uncertificated Shares*

The Directors may implement such arrangements as they think fit in order for any class of shares to be held, evidenced and transferred in uncertificated form. The Company will not be required to issue a certificate to any person holding shares in uncertificated form.

8.2.11 *Placing Shares*

The Placing Shares shall not be entitled to receive or to be paid dividends in respect of the Company's financial year ending 31 July 2007.

Other than in relation to the right not to receive any dividends as set out above or as otherwise expressly stated to the contrary in the Articles, the Placing Shares will rank *pari passu* with the Ordinary Shares in all respects, but shall constitute two separate classes of share.

The Placing Shares shall be converted into Ordinary Shares on a one to one basis by 31 January 2008.

9. THE SHARE OPTION PLAN, THE EMI SCHEME AND THE NEW SCHEMES

9.1 On 8 May 2006, the Directors were granted the following options to subscribe for Ordinary Shares at 73 pence per share under the Share Option Plan:

<i>Name</i>	<i>No. of Ordinary Shares under option pursuant to the Share Option Plan on 8 May 2006</i>
Simon Hume Kendall	273,972
Andrew Fletcher	353,571
Nigel Blythe-Tinker	68,493
Total	<hr/> 764,529 <hr/>

As at the date of the document none of the above options have been exercised (whether in whole or in part).

9.2 On 1 November 2006, Andrew Fletcher was granted an EMI Option pursuant to the EMI Scheme in respect of 126,182 Ordinary Shares at an exercise price of 79.25 pence per share. None of the options under this option have been exercised.

9.3 In addition, the Directors and the Proposed Director have been granted, conditional on Admission, the following rights to acquire new Ordinary Shares under the New Schemes:

<i>Name</i>	<i>No. of new Ordinary Shares awarded pursuant to the Executive Incentive Plan</i>	<i>No. of new Ordinary Shares awarded pursuant to the Executive Share Bonus Plan</i>	<i>No. of new Ordinary Shares awarded pursuant to the Non Executive Incentive Plan</i>	<i>No. of new Ordinary Shares awarded pursuant to the Non Executive Share Bonus Plan</i>
Simon Hume Kendall	Nil	Nil	1,210,644	484,257
Andrew Fletcher	1,210,644	484,257	Nil	Nil
Andrew Fickling	1,210,644	484,257	Nil	Nil
Total	<u>2,421,288</u>	<u>968,514</u>	<u>1,210,644</u>	<u>484,257</u>

9.4 Other than as set out above, an award, conditional on Admission, under each of the Executive Incentive Plan and the Executive Share Bonus Plan of 1,210,644 Ordinary Shares and 484,257 Ordinary Shares respectively has been made to a Group employee and options over a total of a further 937,142 Ordinary Shares have been granted to 8 employees of the Group under the Share Option Plan and options over a total of a further 581,183 Ordinary Shares have been granted to 11 employees of the Group under the EMI Scheme exercisable at 79.5 pence per share.

9.5 *The EMI Scheme*

9.5.1 The EMI Scheme meets the requirements of the EMI Code contained in Chapter 9 of Part 7 of, and Schedule 5 to the Income Tax (Earnings and Pensions) Act 2003.

9.5.2 Options are to be currently satisfied by the allotment of Ordinary Shares.

9.5.3 Options are not transferable, nor are they pensionable. Options may normally be exercised between the first and the tenth anniversaries of the date of grant by the option holder, and will normally lapse on the expiry of the tenth anniversary after the date of grant. Options may be subject to vesting over a period determined by the Directors at the time of grant.

9.5.4 Performance conditions may be required to be met at the discretion of the Directors. Options will normally lapse on the expiry of the period of 40 days from the cessation of employment or the options becoming disqualified under the EMI Code except at the absolute discretion of the Directors who may extend the period of 40 days. However, in any event options will become exercisable for a period of 12 months on the death of an option holder.

9.5.5 Ordinary Shares issued pursuant to the exercise of options will rank in full for all dividends or other distributions payable by reference to a record date occurring on or after the date of allotment. In all other respects the Ordinary Shares so allotted shall be identical and rank *pari passu* with the fully paid registered Ordinary Shares in issue on the date of such allotment.

9.5.6 The option price may be adjusted in the event of a capitalisation issue or upon consolidation, subdivision or reduction of the Company's share capital, subject to the written certificate of the auditors that such adjustment is fair and reasonable and provided that no increase is made to the aggregate exercise price relating to any option.

9.5.7 The aggregate number of Ordinary Shares for which options may be granted under the EMI Scheme and together with the options otherwise granted to the Directors and employees at any time shall be further limited so that it shall not exceed 10 per cent. of the issued ordinary share capital of the Company at the relevant time when aggregated with any further options which are granted under any employee share scheme (including the Share Option Plan) in respect of rights granted during the preceding 10 years.

9.5.8 The Board has the power to amend the provisions of the EMI Scheme provided that no amendment may materially affect the rights of an option holder in respect of an option granted prior to the amendment being made without the written consent of the option holder and provided that no amendments may be made that would constitute a disqualifying event under the EMI Code.

9.6 *The Share Option Plan*

The terms of the Share Option Plan are substantially the same as those set out above for the EMI Scheme other than the references to disqualifying events under the EMI Code and to the extent that the Share Option Plan does not have the tax advantages of the EMI Scheme.

9.7 *Terms of the Executive Share Bonus Plan*

General

The Executive Share Bonus Plan is designed to recognise the contribution of the Executive Directors in the management team of the Enlarged Group. The award of Ordinary Shares under the Executive Share Bonus Plan is contingent on Admission.

No award may be made more than ten years after the date on which Shareholders approve the Executive Share Bonus Plan.

Eligibility

Participation in the Executive Share Bonus Plan is to be open to employees selected at the discretion of the remuneration committee. It is intended that the members of the management team who are full-time Executive Directors will be made awards prior to Admission.

Making of awards

Awards may be made at any time prior to Admission and after Admission, may be made during the six-week period following Admission and the announcement of the Company's interim or final financial results. The remuneration committee may make awards at other times in exceptional circumstances.

No award may be made more than ten years after the date on which Shareholders approve the Executive Share Bonus Plan.

Individual Limits

0.5 per cent. of the issued share capital of the Company is to be awarded to each of the participants in the form of an Executive share bonus ("the Share Bonus"), subject to the restrictions set out below.

Vesting of the Share Bonus and Forfeiture

If a participant under the Executive Share Bonus Plan resigns/ceases employment with the Company within 18 months following Admission, the Share Bonus will be forfeited. Subject to the continued employment of the participant for 18 months following the Admission, the Share Bonus will vest and the participant will be able to dispose freely of his Ordinary Shares.

Benefits under the Executive Share Bonus Plan will not be pensionable.

Further details regarding the general provisions of the Executive Share Bonus Plan are set out in paragraph 9.13 below.

9.8 *Terms of the Executive Incentive Plan*

General

Under the terms of the Executive Incentive Plan conditional awards of Ordinary Shares can be made at the discretion of the remuneration committee to selected employees and executives of the Enlarged Group.

Eligibility

Participation in the Executive Incentive Plan will be open to employees and Executive Directors, excluding those who are within six months of their contractual retirement date. Participants may be selected at the discretion of the remuneration committee.

Making of awards

Awards may be made at any time prior to Admission and after Admission, may be made during the six-week period following Admission and the announcement of the Company's interim or final financial results. The remuneration committee may make awards at other times in exceptional circumstances.

No award may be made more than ten years after the date on which Shareholders approve the Executive Incentive Plan.

Individual limits

The initial award under the Executive Incentive Plan shall be made on terms that the maximum number of Ordinary Shares awarded to a participant may not exceed 5 per cent. of the issued share capital of the Company. Any future awards to an individual shall be limited at the discretion of the remuneration committee.

Performance conditions

Each award ("the Award") shall be made subject to a performance condition that must be satisfied before the award vests. The initial Awards will be made subject to performance conditions based on a target share price on a sliding scale between £1.20 and £1.60 with 2.5 per cent. vesting for every penny increase in the share price.

The remuneration committee will have the right to set different performance conditions for future Awards. The remuneration committee will also have discretion to change a performance condition if events happen that make it fair and reasonable to do so, but not so as to make, in the opinion of the remuneration committee, the performance condition materially easier or materially more difficult to satisfy than when the Award was made.

Vesting

Subject to satisfaction of the defined performance conditions and to continued employment, the conditional Award will normally vest as to one third on each of the following dates:

- the first anniversary of the date of Award;
- the second anniversary of the date of Award; and
- the third anniversary of the date of Award.

Unvested Awards normally lapse on termination of employment. However, the following special rules may apply. The remuneration committee may exercise its discretion to allow a departing executive's Award to vest to the extent that the performance condition has been met *pro rata* to the time elapsed since the date of the Award.

Awards may vest early in the event of a change of control, amalgamation, reconstruction or voluntary winding up of the Company, and also on a demerger if the remuneration committee so decides. In such

circumstances, the performance condition must be satisfied as applied over the shorter period, unless the remuneration committee at its discretion and acting fairly and reasonably, treats the performance condition as satisfied, taking into account the performance of the Company up until the relevant event.

Prior to the vesting of an Award, the Award may not be transferred, assigned, charged or otherwise encumbered but this will not restrict any right of personal representatives following the death of the participant.

Further details regarding the general provisions of the Executive Incentive Plan are set out in paragraph 9.13 below.

9.9 *Details of the Employee Trust*

An employee trust is to be established by the Company in order to operate the Executive Share Bonus Plan and the Executive Incentive Plan (“the Employee Trust”). The trustee of the Employee Trust will be a third party trustee company.

The principal terms of the Employee Trust are that it is a discretionary trust, the beneficiaries of which are the executives and former executives of any Group company and their spouses, widows, widowers and children or step-children under the age of 18. The Employee Trust is an employee share scheme and the trustee will have the power to facilitate share awards including but not limited to the power to acquire Ordinary Shares, or make conditional share awards under the Company’s share plans, transfer Ordinary Shares to beneficiaries (by gift or otherwise), transfer Ordinary Shares pursuant to any employees’ share scheme and assist beneficiaries in acquiring the Company’s Ordinary Shares. The Company has the power to amend the Employee Trust deed with agreement of the trustee. Certain restrictions on the ability to amend Employee Trust deed will be contained in the deed. It is anticipated that the Employee Trust will be funded by loan/contribution from the Company.

9.10 *The Non Executive Share Bonus Plan*

General

The Non Executive Share Bonus Plan contains the necessary provisions to make awards to Non Executive Directors on substantially the same terms as the Executive Share Bonus Plan other than as provided below.

The Non Executive Share Bonus Plan will be operated and administered by the Board.

Eligibility

Participation in the Non Executive Share Bonus Plan may be by non executive directors of the Company selected by the Board. The participants in the Share Bonus Plan must not resign/terminate their non executive directorships, in accordance with the terms of their appointment, during a period of 12 months following Admission.

Individual Limits

As above, 0.5 per cent. of the issued share capital of the Company is to be awarded to each of the participants in the form of a Non Executive Share Bonus (“the Non Executive Share Bonus”), subject to the restrictions set out below.

Vesting of the Non Executive Share Bonus and Forfeiture

If a participant under the Non Executive Share Bonus Plan terminates his non executive directorship with the Company within 18 months following Admission, the Non Executive Share Bonus will be forfeited. Subject to the participant remaining as a non executive director of the Company for 18 months following Admission, the Non Executive Share Bonus will vest and the participant will be able to dispose freely of his Ordinary Shares.

Further details regarding the general provisions of the Non Executive Share Bonus Plan are set out in paragraph 9.13 below.

9.11 *Terms of the Non Executive Incentive Plan*

General

The Non Executive Incentive Plan contains the necessary provisions to make awards to non executive directors on substantially the same terms as the Executive Incentive Plan other than as provided below.

The Non Executive Incentive Plan will be operated and administered by the Board.

Eligibility

Participation in the Non Executive Incentive Plan will be open to non executive directors of the Company. The Board will select those to whom awards are to be made.

Vesting

Awards normally lapse on termination of the non executive directorship. However, the following special rules may apply. Awards will be forfeited on termination of the non executive directorship, unless the Board exercises its discretion to allow them to vest.

Further details regarding the general provisions of the Non Executive Incentive Plan are set out in paragraph 9.13 below.

9.12 *Details of the Non-Executive Trust*

A non executive trust (“the Non Executive Trust”) is to be established by the Company in order to operate the Non Executive Incentive Plan and the Non Executive Share Bonus Plan. The trustee of the Non Executive Trust will be a third party trustee company. The principal terms of the Non Executive Trust are substantially on the same terms as the Employee Trust except that it is not an employee share scheme and the beneficiaries are the non executive and former non executives of any Group company and their spouses, widows, widowers and children or step-children under the age of 18.

9.13 *Provisions applying to the Executive Share Bonus Plan, The Executive Incentive Plan, the Non Executive Share Bonus Plan and the Non Executive Incentive Plan (together “the New Schemes”)*

Issue of Ordinary Shares

Awards under the New Schemes may be granted over new or existing Ordinary Shares. Ordinary Shares will be allotted, re-issued as treasury Ordinary Shares or transferred to a participant within 30 days of vesting only where satisfactory arrangements have been made to collect income tax and national insurance from the participants.

Ordinary Shares transferred or allotted under the New Schemes will, upon the holder’s name being entered on the Company’s register of members, rank *pari passu* with the then issued Ordinary Shares (save for any entitlements accruing to Ordinary Shares by reference to a record date preceding the date of entry on the register of members).

The Company will apply for admission to, and trading on, AIM for any new Ordinary Shares allotted and issued under the New Schemes after Admission.

Adjustment of awards

In the event of any variation of the Company’s share capital, including a capitalisation issue, rights issue, sub-division or consolidation of Ordinary Shares, or payment of a capital dividend or similar event, or a reduction of share capital, and in the event of a demerger, such adjustments may be made as appropriate to the number of Ordinary Shares subject to awards under the New Schemes.

Amendments

Each of the New Schemes may be amended except that the basis for determining a participant's entitlements, and any adjustments on a variation in capital, may not be altered to the advantage of participants without the prior agreement of the Company in general meeting, except for minor amendments to benefit the administration of each of the New Schemes, to take account of changes in legislation, to obtain or maintain favourable tax, exchange control or regulatory treatment for participants or for the Company or for members of the Group.

Limits on the issue of Ordinary Shares under the New Schemes

The rules of the New Schemes permit awards to be satisfied on vesting by new issue Ordinary Shares, treasury Ordinary Shares or Ordinary Shares purchased in the market. Options granted and awards made prior to Admission shall not count toward this limit.

11. UNITED KINGDOM TAXATION

11.1 *Introduction*

The information in this section is based on the Directors' understanding of current tax law and HM Revenue & Customs practice. The following should be regarded as a summary and should not be construed as constituting advice. Prospective shareholders are strongly advised to take their own independent tax advice but certain potential tax benefits are summarised below in respect of an individual resident in the UK for tax purposes.

On issue, the Existing Ordinary Shares and the Placing Shares will not be treated as either "listed" or "quoted" securities for tax purposes. Provided that the Company remains one which does not have any of its shares quoted on a recognised stock exchange (which for these purposes does not include AIM), the Existing Ordinary Shares and the Placing Shares should continue to be treated as unquoted securities.

The following information is based upon the laws and practice currently in force in the UK and may not apply to persons who do not hold their Ordinary Shares as investments.

11.2 *Capital Gains Tax ("CGT")*

11.2.1 *Disposals*

Changes were made to the rules relating to the holdings of shares from 6 April 1998 so that the "pooling" of shares (i.e. treating them as one asset) no longer applies. Therefore, any disposal of shares after 6 April 1998 is usually treated on a last in, first out basis for the purposes of

calculating gains that are chargeable to tax unless the shares are subsequently re-purchased within 30 days.

A UK resident corporate shareholder disposing of shares in a company may be liable to corporation tax on chargeable gains in relation thereto at the usual rates of corporation tax applicable to it (currently either at the full rate of 30 per cent. or at the small companies rate of 20 per cent.). In computing the chargeable gain liable to corporation tax, the shareholder is entitled to deduct from the disposal proceeds, the cost to it of the shares, together with incidental costs of acquisition, as increased by indexation allowance, and disposal costs.

In some circumstances, a shareholder may be exempt from corporation tax in relation to its disposal of shares under the substantial shareholding exemption or be able to reduce the quantum of the gain by capital and/or income losses arising to the corporate shareholder.

11.2.2 *Taper Relief*

On 5 April 1998, “taper relief” was introduced which applies to individual investors and trustees (but not to corporate investors). Taper relief reduces the chargeable gain assessable to CGT in relation to the period the investment is held and the scales of relief depend upon whether the investment is a “business” or “non-business” asset. The scale of relief is enhanced for those assets that qualify as “business” assets. Business assets include shares in qualifying unquoted trading companies. For these purposes, companies admitted to trading on AIM are regarded as unquoted.

During the period for which the shares are held the classification may change so that for part of the holding period, shares in the Company will be deemed to be non-business assets with the associated reduced scales of taper relief applicable. If this is the case, the taper relief would be calculated by apportioning any gain assessed on shares in the Company between the non-business and business periods with each part of the gain then attracting taper relief at the appropriate rate, for the whole of the qualifying holding period.

11.2.3 *CGT Gift Relief*

If shares in an AIM company, which is a trading company, or the parent company of a trading group, are transferred to a third party, other than at arm’s length, any deemed capital gain can be “held over”, i.e. the CGT liability is postponed until a subsequent arm’s length disposal by the transferee, who effectively inherits the transferor’s base cost. The relief must be claimed by both the transferor and the transferee within five years after the 31 January immediately following the end of the relevant tax year in which the gift was made and the transferee must be resident or ordinarily resident in the UK and remain so for six years after the end of the relevant tax year in which the gift was made. If CGT gift relief is claimed, the effect of the claim is that the ownership for taper relief purposes starts again, with no taper relief in respect of the previous period of ownership being applicable.

Gift relief is not available on gifts to a trust where the donor can still receive any benefit from the trust.

11.2.4 *Inheritance Tax (“IHT”)*

Shares in qualifying AIM trading companies can attract 100 per cent. business property relief from IHT provided that the shares are held for at least two years before a chargeable transfer for IHT purposes takes place.

11.2.5 *The Placing Shares*

The conversion of the A Ordinary Shares to Ordinary Shares is expected to be regarded as a reorganisation of share capital for capital gains tax purposes, to the effect that the holders of the A Ordinary Shares will be deemed not to have made a disposal of their A Ordinary Shares.

Following the conversion the new Ordinary Shares will be treated as replacing the original A Ordinary Shares and carry the original base cost for the purpose of any future share disposals.

11.3 *Income Tax*

11.3.1 *Taxation of Dividends*

- 11.3.1.1 The Company will not be obliged to make any withholding on account of UK tax on payment of any dividends. UK resident individual shareholders are treated as having received income of an amount equal to the sum of the dividend and its associated tax credit, the tax credit for dividends paid being 10 per cent. of the combined amount of the dividend and the tax credit (i.e. the tax credit will be one ninth of the dividend). The tax credit will effectively satisfy a UK resident individual shareholder's income tax liability at the dividend ordinary rate in respect of the dividend but not liability at the dividend upper rate. UK resident individual shareholders who are subject to income tax at the higher rate (currently 40 per cent.) will have to account for additional tax at the dividend upper rate of 32.5 per cent. After taking account of the 10 per cent. tax credit, such a taxpayer would have to account for additional tax of 22.5 per cent of the dividend plus tax credit (equal to 25 per cent. of the cash dividend). In determining what tax rates apply to a UK resident individual shareholder, dividend income is treated as his top slice of income.
- 11.3.1.2 A UK resident (for tax purposes) corporate shareholder will generally not be liable to UK corporation tax on any dividend received.
- 11.3.1.3 A UK pension fund or a charity is denied a repayment of the tax credit.
- 11.3.1.4 Shareholders not resident in the UK are generally not taxed in the UK on dividends received by them (unless, exceptionally, the investment is part of a dealing trade managed by a UK investment manager acting, broadly, on arm's length terms). By virtue of double taxation agreements between the UK and other countries, some overseas shareholders are able to claim relief for all or part of the tax credits carried by the dividends they received from UK companies. Persons who are not resident in the UK should consult their own tax advisers on the possible applicability of such provisions and what relief or credit may be claimed in respect of such tax credit in the jurisdiction in which they are resident.

11.3.2 *Loss Relief*

If a loss arises on the disposal of shares in an unquoted trading company, such shares being originally acquired on a subscription for new shares, the loss may be relieved against income of that year or the previous year or both years, the Shareholder may choose which year takes priority. Subject to the application of targeted anti-avoidance rules, any loss remaining after claiming relief against income, may be available for relief against capital gains in either the current or subsequent years.

11.4 *Stamp Duty and stamp duty reserve tax*

Transfers or sales of Ordinary Shares will be subject to *ad valorem* stamp duty (payable by the purchaser and generally at the rate of 0.5 pence per £1 or part thereof rounded up to the nearest £5 and an unconditional agreement to transfer such shares, if not completed by a duly stamped stock transfer form within sixty days of the day on which such agreement is made or becomes unconditional, will be subject to SDRT (payable by the purchaser and generally at the same rate as stamp duty). However, if within 6 years of the date of the agreement an instrument of transfer is executed pursuant to the agreement and stamp duty is paid on that instrument, any liability to SDRT will be cancelled or repaid.

11.5 *Venture Capital Trusts ('VCT')*

Application has been made to HMRC for advance assurance that the Placing Shares will be eligible for the purposes of the VCT legislation and may as a result be a qualifying investment for VCT but advance assurance has not yet been received.

Whilst the Company cannot guarantee to conduct its activities in a way to allow it to maintain its status as a qualifying VCT investment, the Directors intend, so far as possible, to do so.

The above is a summary of certain aspects of current law and practice in the UK. A shareholder who is in any doubt as to his tax position, or who is subject to tax in a jurisdiction other than the UK, should consult his or her professional adviser.

12. WORKING CAPITAL

The Directors and the Proposed Director are of the opinion that, having made due and careful enquiry and after taking into account the net proceeds of the Placing to be received by the Company, the working capital available to the Enlarged Group will, on Admission, be sufficient for its present requirements, that is for at least 12 months from the date of Admission.

- 13.30 Mandatory bids, squeeze-out and sell-out rules relating to the Ordinary Shares and the Placing Shares:
- 13.30.1 Mandatory bid
- The Code applies to the Company. Under the Code, if an acquisition of Ordinary Shares were to increase the aggregate holding of the acquirer and its concert parties to shares carrying 30 per cent. or more of the voting rights in the Company, the acquirer and, depending on the circumstances, its concert parties, would be required (except with the consent of the Panell to make a cash offer for the outstanding shares in the Company at a price not less than the highest price paid for the Ordinary Shares by the acquirer or its concert parties during the previous 12 months. This requirement would also be triggered by any acquisition of shares by a person holding (together with its concert parties) shares carrying between 30 and 50 per cent. of the voting rights in the Company if the effect of such acquisition were to increase that person's percentage of the voting rights.

13.30.2 Squeeze-out

Under the Act, if a person who has made a general offer (an “offer”) to acquire Ordinary Shares (the “offeror”) were to acquire, or contract to acquire, 90 per cent. of the Ordinary Shares to which the offer relates, within the time period specified in the Act, the offeror could then compulsorily acquire the remaining 10 per cent. The offeror would do so by sending a notice to all Shareholders who have not accepted the offer (the “Outstanding Shareholders”) telling them that the offeror will compulsorily acquire their Ordinary Shares and, six weeks later, executing a transfer of the outstanding Ordinary Shares in the offeror’s favour and (if not paid to the Shareholders) paying the consideration to the Company, which would hold the consideration on trust for Outstanding Shareholders. The consideration offered to the Outstanding Shareholders must, in general, be the same as the consideration which was available under the offer.

13.30.3 Sell-out

The Act gives minority Shareholders a right to be bought out in certain circumstances by the offeror. If, at any time before the end of the period within which the offer can be accepted, the offeror holds, or has agreed to acquire not less than 90 per cent. of the Ordinary Shares, any holder of Ordinary Shares to which the offer relates who has not accepted the offer can, by a written communication to the offeror, require it to acquire that holder’s Ordinary Shares.

The offeror is required to give each Shareholder notice of his right to be bought out within one month of that right arising. The offeror may impose a time limit on the rights of the minority shareholders to be bought out, but that period cannot end less than three months after the end of the acceptance period. If a Shareholder exercises his rights, the offeror is entitled to and bound to acquire those Ordinary Shares on the terms of the offer or on such other terms as may be agreed.
